Recorder of Deeds:		70 49</																																																																	

The Prohibition party polled 99 votes for Senator in Congress. The Socialists 93 for Senator and the Socialist Labor 12. 33 scattering votes were cast for Recorder of Deeds, and 4 for Prosecuting Attorney.

ROB MEXICAN BANK

**Mob Led by Constitutionalist
Soldiers Sack Big Finan-
cial Institution.**

U. S. MARINES AT ACAPULCA

Western Coast City Occupied at Request of Citizens—Gutierrez Named His Cabinet.

Vera Cruz.—According to private telegrams received here the National Bank of Mexico City has been sacked by a mob of Constitutional soldiers. A report received here, but which is not confirmed, says that Lucio Blanco, a former rebel leader, has been designated by General Carranza as a compromise ad-interim president and that Carranza's choice has been approved by adherents of Francisco Villa. It is said that this development in the situation took place after General Carranza had sent his ultimatum to the delegates to the Aguas Calientes convention.

Marines on West Coast.

Mexico City.—It is reported here that the port of Acapulco on the Pacific has been occupied by American marines. The occupation is said to have followed a request of the inhabitants who were suffering great privations owing to the revolution.

General Venustiano Carranza has issued an ultimatum declaring himself the chief head of the republic. The proclamation was issued at Cordoba and directed to the military chieftains and the civil employes of the central government, who were ordered to obey Carranza as first chief of the Constitutionalists and to disregard totally the mandates of the Aguas Calientes convention.

To the military chieftains he said that unless they left the conference and were back at their posts by 5 o'clock Tuesday evening their next in rank would assume their places.

Gutierrez Names Cabinet.

General Eulalio Gutierrez, who was appointed provisional president of Mexico by the Aguas Calientes convention, has proclaimed himself the chief executive, beginning November 10, and has appointed the following cabinet to act with him:

Foreign minister, Fernando Iglesias Calderon; minister of communications, General Antonio Villareal; minister of war, General Juvenio Robles; minister of the interior, General Jose Blanco; minister of public instruction, Signor Soto y Gains; minister of justice, Jose Vasconcelos; minister of progress, Pastor Rouaix; minister of the treasury, Felicitas Villareal.

Gutierrez in Prison.

New York.—General Eulalio Gutierrez, who was elected provisional president of Mexico at the recent Aguas Calientes convention, has been imprisoned by General Francisco Villa, according to a telegram said to come from General Venustiano Carranza, and made public here by the Mexican bureau of information, the same agency that announced Gutierrez had repudiated the acts of the convention electing him.

The telegram accredited to General Carranza did not say where the new president had been captured or where he was believed to be incarcerated.

The reason for the seizure and confinement of Gutierrez, the message said, was that he had refused to be dominated by the demands of the Villa faction.

Report Discredited.

El Paso, Tex.—General Carranza's charge as given out at New York that General Villa had imprisoned General Dulalio Gutierrez, named provisional resident by the Aguas Calientes conference, was not credited by either Carranza or Villa agents here. The Villa agents pointed out that Gutierrez could not have been selected for the post unless he had been willing to occupy it. Rafael Muzquiz, the Carranza consul general to the United States, who has headquarters here, said that he had received no official or indirect advices of the reported arrest.

Three Americans Slain.

El Paso, Tex.—Two American cowboys, named Bishop and Eckles, and an unidentified American negro were murdered a few days ago near Temosachio, west of Chihuahua City, according to advices received here. It is stated that the Americans were killed by federal filibusters, who have been raiding in the vicinity.

ay Renew Naco Siege.

Naco, Ariz.—Refugees from the Mexican town of Naco began flocking to the American side when Villa's troops, under Governor Maytorena, moved into position outside the town, apparently preparatory to a renewal of the recent siege.

Threw at Colt—Killed Baby.
Chelsea, Ok.—R. V. Palmer, a farmer, got out of his buggy and threw a heavy clod at a colt that was following to drive it back home. The clod missed the colt but struck a month old baby which Mrs. Palmer was carrying in her arms and killed it.

In Reserve Banks, 18 Million.
Washington.—Payment of their first installment of the capital stock of Federal reserve banks, called for November 2, has been practically completed, the total being \$17,947,166.

HIGH SCHOOL NOTES.

Didn't you enjoy chapel last week? It was certainly an occasion to be enjoyed. As usual when the chapel gong sounded the assembly room filled up quickly and not quietly. Mr. Conrod came up stairs looked searchingly then anxiously around the room and hurried down stairs again. The teachers ranged themselves at various points of observation preparatory to cutting the deportment of any too talkative student. No one rose to make announcements or to introduce musicians or speakers. In fact there were no such people visible. Anxious to "start something" a loud clapping was begun and continued in one, two, three method of clapping which is so sure to be effective. At last an effect was produced. Mr. Conrod appeared, but this is what he said—"The person who was to provide music is sick, the gentleman who was to speak forgot it so you are excused to your third hour class." The worst of it was that too many lessons had been prepared for 20 minute instead of 45 minute recitations.

Sophomore Notes

Last week was one of the most strenuous weeks that the Sophmores have ever experienced. We had four tests, each one long and difficult. They naturally caused much anxiety and dread but now they are all over and we are facing another term with new hopes and ambitions before us. We are at the present watchfully waiting for the presentation of our grade cards which will take place Wednesday, all being well. Our English classics for the new term were ready and waiting for us so we began "Macaulay's Essays on Johnson and Goldsmith" Monday.

The agriculture classes worked mostly in the school yard and garden last week. We trimmed trees, set out a tree and dug peanuts. We think we deserve thanks for these pieces of labor.

Junior Notes

The Juniors this last week have been smothered in a volley of tests. We have had two English tests, both on the "Idylls of the King," one on the outside reading, and the other on the work we had had in class. Many were the surprises which Miss Fenton had in store for us. The questions were strange phenomena of which we had never thought or spoken and the things we had reviewed she completely ignored. Well, we have something to be thankful for, we have at last finished that mysterious book which seems almost as if it were some foreign language, and have started out on a new conquest in the form of George Eliot's "Silas Marner," for outside work and Stevenson's "Travels with a Donkey" for class study. We expect to do these up in fine shape and once more possess the good will of our dearly beloved Miss Fenton.

Some members of the chemistry class were greatly surprised when they were preparing their notebooks to hand in to find some of their cherished experiments peacefully abiding in some of the agriculture note books, among expositions on "Feeding the swine," and "Hopping the Clods."

We have now started on a new term and expect our grade cards to make a fine showing at the end. We will have to work to do it, however, and some of the work, especially those English lessons loom up terrible before us, but nevertheless considering the class, we will conquer them with ease.

Senior Notes.

For the last two weeks the High school atmosphere has been thick shall we say blue with tests. English tests, history tests, psychology tests and tests of all lengths and description have followed each other so rapidly we have scarcely had time to think in other than terms of school. We are hoping for rest now though. The first term is over and the teachers fairly on their way to teacher's meeting. That means two days vacation for us for which we are truly grateful.

The observation class made their second observation Thursday of last week. Friday we compared criticisms of the class observed, and stored them away in our brain for future use.

The Literary Societies are very busy securing new members, reorganizing and preparing for the winter season. We are hoping for better societies than this year and are sure to have better ones if every student does his part.

The Senior basket ball teams are practicing with their accustomed vim and determination. We intend working hard for the loving cup Mr. Welton has kindly offered as a prize.

The American history class has been working this term under Mrs. Hill. The course is especially interesting which the large per cent of G's plus and A's plus prove.

Printing Plant.

For sale:—A 7x9 model jobber, an my, rack, stones, furniture, 15 cases containing about 250 pounds of good pe. Take it all or what you want at our own price. Also a good double seated buggy. Must be sold. Price when you see the goods.

W. O. ATKESON,
Butler, Mo.
